Affirmative Action Statement

Equality and Equity in Curriculum

The Randolph Township School District ensures that the district’s curriculum and instruction are aligned to the State’s Core Curriculum Content Standards. The curriculum addresses the elimination of discrimination and the achievement gap, as identified by underperforming school-level AYP reports for State assessment. The Curriculum provides equity in instruction, educational programs and provides all students the opportunity to interact positively with others regardless of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability or socioeconomic status.

N.J.A.C. 6A:7-1.7(b): Section 504, Rehabilitation Act of 1973; N.J.S.A. 10:5; Title IX, Education Amendments of 1972
The statements represent the beliefs and values regarding our educational system. Education is the key to self-actualization which is realized through achievement and self-respect. We believe our entire system must not only represent these values, but also demonstrate them in all that we do as a school system.

We believe:

- The needs of the child come first.
- Mutual respect and trust are the cornerstones of a learning community.
- The learning community consists of students, educators, parents, administrators, educational support personnel, the community and Board of Education members.
- A successful learning community communicates honestly and openly in a non-threatening environment.
- Members of our learning community have different needs at different times. There is openness to the challenge of meeting those needs in professional and supportive ways.
- Assessment of professionals (i.e., educators, administrators and educational support personnel) is a dynamic process that requires review and revision based on evolving research, practices and experiences.
- Development of desired capabilities comes in stages and is achieved through hard work, reflection and ongoing growth.
In Eighth Grade English Language Arts, students engage in discourse about classical literature and nonfiction as well as topics of current concern and interest. Students are introduced to short fiction and novels, selections related to inhumanity, mythology, and Shakespeare’s works. Teachers and students select from a list of core titles, book club novels, and independent reading books (IRBs). Students learn the tools and strategies necessary to become more sophisticated independent readers while using self-selected and teacher-guided materials. Teachers and students use language for a variety of purposes, including various types of writing: explanatory/expository, argument, research, and narrative. Students practice the writing process with emphasis on revisions for content and editing for style to produce well-crafted writing. Writing assignments, including those related to reading selections, will reinforce the learning and application of new vocabulary. Students increase their vocabulary, improve comprehension skills, enhance literary responses, and develop an appreciation of fiction and non-fiction texts. Furthermore, through collaborative classroom instruction, students learn to articulate their academic knowledge and skills using a variety of modalities including written response, public speaking, and electronic media. Students grow intellectually, socially, and emotionally as they consider universal themes, diverse cultures and perspectives, as well as common aspects of human existence. To achieve these goals, the course is guided by the New Jersey Student Learning Standards and goals established by the Randolph Township Board of Education.
